

Struggling with Behaviours that Challenge?

ADDvanced Solutions
Community Network
Supporting you to find the answers

The Supporting Behaviours that Challenge offer is open to families in Knowsley whose child/young person is presenting with behaviours that they don't always understand. ADDvanced Solutions Community Network will be working alongside other Knowsley agencies and services to offer families training and support.

For more information check out our Knowsley newsletter at www.advancedsolutions.co.uk

NEURODEVELOPMENTAL CONDITIONS FAMILY LEARNING PROGRAMME

Our Neurodevelopmental Conditions Family Learning Programme provides an opportunity for parents and carers to gain understanding and skills about neurodevelopmental conditions including autism and ADHD (pre, during and post-diagnosis) with strategies to support the difficulties that may present.

SUPPORTING BEHAVIOURS THAT CHALLENGE FAMILY LEARNING PROGRAMME

Our Supporting Behaviours that Challenge Family Learning Programme is for parents and carers who wish to gain understanding and skills about their child/young person's behaviours that challenge in order to identify what's really going on, whilst learning strategies to support them.

Following attendance of either of these programmes your child/young person will be eligible to register for our children/young people's offer to help them better understand themselves.

ND AND ME/UNDERSTANDING ME

Small group work for children aged 8-11 to help them to better understand themselves and manage the behaviours they present with.

COACHING FOR YOUNG PEOPLE 12-25

To better understand themselves, promote positive decision making and manage difficulties that may affect their behaviour. Young people aged 18-25 who are presenting with behaviours that challenge can register their interest to attend without their parents/carers attending either of the learning programmes beforehand.

PROFESSIONALS TRAINING OFFER

Training for professionals working with families struggling with behaviours that challenge and any possible neurodevelopmental conditions.
