

ST HELENS Schools Project

ADDvanced Solutions
Community Network
Supporting you to find the answers

ADDvanced Solutions Community Network are delighted to be able to offer a unique opportunity to the secondary schools of St Helens. As part of a pilot initiative, all teaching and support staff are invited to attend six selected sessions of Neurodevelopmental Conditions Awareness Raising Training. The aim is to improve understanding of neurodiversity, equip you to recognise needs associated with neurodevelopmental conditions and enable you to build strategies to support the neurodivergent young people within your school community.

Neurodevelopmental Conditions Awareness Raising Training

All teaching and support staff across St Helens secondary schools are invited to attend 6 twilight webinar sessions, covering the most relevant topics around neurodiversity in schools.
